GENESIS TOKEN

The Genesis Token is the digital membership for the entire Over Exposed ecosystem. Holding at least one will expose you to exclusive perks and promotions.

1) WHITELIST

Genesis Token holders will be guaranteed 3 minting per Token for all Over Exposed collections.

Each collection will include a 24-hour pre-mint for Genesis holders only. Holders that do not mint in 24 hours will not be guaranteed minting after.

Holders will also have premier access to all events and activities hosted by Over Exposed.

GENESIS TOKEN PT.2

2) COLLECTORS CACHE

Holders of one or more Genesis Tokens will receive exclusive airdrops called the Collectors Cache. These airdrops will be coordinated after the minting of each new collection. They will be stylized NFTs according to the amount of Tokens a holder owns. Holders will only receive 1 collectors cache per collection.

1 Genesis Token = Silver Cache
2-4 Genesis Tokens = Gold Cache
5+ Genesis Tokens = Diamond Cache

3) GENESIS-ONLY COLLECTION

There will be collections of 1000 NFTs that will be available for Genesis Holders only.

MEKANISM

SEASON 2 WHITELIST UTILITY

Holding a Mekanism will automatically enter you into a raffle to win a whitelist spot for Over Exposed Season 2. There will be 1000 whitelist spots available for this raffle.

HOW IT WORKS:

Every Mek owned = 1 point in the raffle

Every 10 Meks owned = automatic 1 WL

MEKANISMA WL RAFFLE

MEKANISM PT.2

SOURCE KEY PUZZLE

Mekanism holders will be allowed to use their source key to unlock future content.

NOTICE

The original file for this document (Blackpaper V2) was
DECODED IN BLACKPAPER V2
and is now available for download.

AUCTIONS

ARTANO PARTNERSHIP

We are excited to announce that we are officially partnering with Artano to host our art auctions.

We will be auctioning off 1 of 1 3D animations with sound made by Wren Ellis. Each will be unique - while still maintaining the Over Exposed aesthetic. There will be five 1 of 1's to kick off this epic partnership.

Auctioned pieces will be added to a new collection entitled "Wren's Collection" that will grow over time to showcase his work.

Artano.

COPYRIGHT

MEKANISM

We aim to give Mekanism owners the rights to their Mekanism. **PENDING LEGAL APPROVAL**

GENESIS TOKEN / WREN'S COLLECTION

Tokens and 1 of 1's may only be re-sold for gain or profit as NFTs with legitimate policy IDs. We do not grant permission for any person(s) or business(es) to reproduce, print or otherwise sell our content for commercial purposes without explicit permission.

We do not grant permission to reproduce our logos for any reason without explicit permission.

ACTIVITIES

VIDEO GAMES

A community that plays together, stays together. We will be using our platform to organize casual multiplayer video games under an Over Exposed group. From Warzone to Dota2 and from poker to VR Chat - all are welcome to join in on the fun.

COMMUNITY

Our fan art competitions were a massive hit. We listen to the community and will continue to host various types of engaging events that support our mission - to connect and bond with our fellow art lovers.

CNFT CON

We are proud to be attending the first ever physical CNFT gathering: CNFT CON. It is taking place 8-9 October 2022 in Las Vegas. We reserved the largest block possible (30x30 feet) to showcase an interactive experience unlike any booth there - we're sure of that.

We will have a professional video crew recording and streaming the entire event from OE's perspective so that those who were unable to make it can be right there with us the whole time. There will be live Q and A with the team during the event to allow the community to ask about the experience. The live stream chat will also be included into the Q and A experience.

CNFT CON Pt.2

Our final video edit of the event will also include behind the scenes footage of the setup, tear down and interviews with the team before and after the event.

Possibly the most exciting aspect: we will be releasing a limited amount of unique NFTs *in person* at the convention as well as new OE merchandise. If you can't make it, don't sweat it. We will also be releasing a CNFT CON-themed NFT online to commemorate this historical milestone for the journey of Cardano.

NFT NYC

Over Exposed will be attending the 4th annual NFT NYC industry event on June 20-23, 2022.

We are excited to represent the Over Exposed community at one of the most thriving congregations of artists, influencers and businessmen in North America. With VIP status, we will be connecting with fellow project owners from all blockchains.

WHY CARDANO?

Cardano is considered the third blockchain generation. Not only is Cardano's technology the closest to solving the trilemma problem, it is doing so with high efficiency (i.e. a low energy consumption). Armed with the innovative eUTxO model, Cardano is able to take advantage of the robustness of Bitcoin's infrastructure and adds to it the ability to pair parameters with transactions. This eliminates the probabilistic nature found in Account-Based blockchains.

Another aspect that is not found in many blockchains is the "native assets concept." All assets in Cardano (i.e. NFTs and tokens) are native to the blockchain and require no additional layering or contracts to exist, making it a natural option to be the host of any NFT project.

OE IN CARDANO

One of the objectives of OE is to showcase the capabilities of Cardano. The UTxO model provides the ability to "batch mint" - which means more than 20-25 NFTs can be minted and distributed at once in one transaction. This greatly reduces the potential congestion that used to happen with public mints.

Paired with "batch minting," Fourzin's developed minting engine recognizes each wallet trying to use the engine. Therefore, only previously registered wallets can participate. This greatly affects the overall distribution of NFTs among wallets and gives everyone an equal chance to be part of the project - regardless of their time zone - which in turn reflects on the overall health of collections.

MERCH

BRAND CLOTHING

We will be developing a line of branded Over Exposed apparel starting with t-shirts and sweatshirts. In due time, OE apparel will adopt a line of jewelry including custom necklaces, rings and bracelets.

CUSTOM CLOTHING

Want to design for OE?
It's your lucky day - we will be hosting vote-based competitions to select designs to be included into the official OE clothing line.

THE MUSIK ROOM

OVERVIEW

The Musik Room is the second season in the Over Exposed universe.

It comprises of custom-made instruments.

From flutes on fire to drums made of ice - any and all forms of musical sound reproduction devices will be represented.

The collection will be non auto-generated. Each piece will be hand-assembled by Wren Ellis.

SOUND

Every single NFT will have its own unique sound. No sounds will be generated, automated or compromised by any form of computer-aided delivery.

Each one will be recorded or programmed by Wren Ellis.

There will be multiple different types of instruments with then multiple types of genres and ethnicities within.

MUSIC EDUCATION

A portion of the funds generated by The Musik Room will be going to charitable organizations that specialize in children's music education. We have selected two organizations that align with our goals: Save the Music Foundation and the Harmony Project.

If our community presents us with a music education organization that they would like us to donate to - perhaps one specific to their region - we will be happy to hear them out and possibly add it to the list. A majority vote from the Genesis holders will be required for the addition to take place.

UTILITY

Over Exposed breaks rules and pushes boundaries at every turn. We have done so once again.

You will be able to combine your instruments to make loops, beats and compositions of your own. This is accomplished through our own platform - which will allow for you to mint your combination as an NFT.

Since every sound is unique, no two combinations will sound the same.

UNDER DEVELOPMENT: There will be utility involved with holders of a combination. This includes vote-based beat competitions where you can win a wide range of prizes.

ARE YOU READY?

The ultimate combination of detail-centric 3D art, customized sound and interactive utility is coming to Cardano.

"Innovation distinguishes between a leader and a follower."

- Theodore Levitt
